

"CASCARETS" THE BEST LAXATIVE

Constipated, Bilious, Headachy, Stomach Sour, clean your sluggish bowels tonight sure.

Get a 10-cent box now.

You men and women who can't get feeling right — who have headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel worn out.

Are you keeping your bowels clean with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep; cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret tonight will straighten you out by morning — a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good — never gripe or sicken.

WELSH DEFEATS EARL FISHER IN 10 FAST BOUTS

(Associated Press Telegram)

Cincinnati, Jan. 27.—Before the Price Hill Athletic club at Music Hall last night Freddie Welsh, of England, defeated Earl Fisher, of Cincinnati, in a snappy ten-round bout. The men are lightweights, but did not weigh in. Welsh appeared to have about ten pounds the advantage. Fisher put up a plucky battle, and his friends were highly pleased with his showing. Welsh won by his superior ring generalship, being able to hit Fisher at will and make him miss as he pleased. Fisher was as fast as a race horse and hit the Welshman in the right place on several occasions, but there was not enough of steam behind Earl's blows to stagger Welsh.

Fisher being a local boy, the sports were anxious to see him make good, and he received lots of encouragement. Every clean punch Earl landed brought loud applause, and had the Cincinnati lad put Welsh down the Queen City crowd would have torn the roof off the historic old Music Hall.

Few things are so futile as a bachelor and a married man giving each other advice.

Perhaps all the world loves a lover on the theory that pity is akin to love.

The Courts

Common Pleas Court.

In common pleas court on Monday, the court heard the evidence and arguments for counsel in the case of Henry Wyrrich vs. the city of Newark. Plaintiff claims that he was legally appointed and qualified as sanitary policeman on the 31st of December, 1908, for the year 1909, at a salary of \$60 per month, and that he entered upon the discharge of his duties of the office. He claims that an order subsequently made by the board to discontinue his services was improperly issued, and he asks that he be paid for his services.

The court took the case and reserved its decision.

Laura Murdoch vs. City of Newark, leave given to withdraw motion to petition now on file, and to file an amended motion.

A bill of exceptions has been prepared in the case of Margaret J. Vaughan vs. Ohio Electric Ry. Co., and the bill of exceptions has been filed with the Clerk of Court, for the purpose of taking the case to the court of appeals. Plaintiff was injured in alighting from an electric car in this city some months since.

PARDONED AFTER SERVING 28 YEARS IN STATE PRISON

(Associated Press Telegram)

Philadelphia, Jan. 27.—John Rudy, who has spent the last 28 years of his life in the state penitentiary here passed out of the gates a free man today, the board of pardons having acted favorably upon the petition for his release.

Rudy in a fit of anger killed his father in Lancaster, where he lived with his wife and two sons. He was sentenced to life imprisonment. He was 30 years old then; today he is 58. His wife has long since divorced him and married again, and with her two sons has gone elsewhere to live.

During his prison term Rudy has saved money. His release was brought about through the efforts of Dr. Rudy, his uncle, and brother of the slain man. With the exception of the doctor he is not a friend, he said, and it is his intention to go where he is not known and start life anew.

THE PRICE IS \$12.50—HERES' THE STORY—READ IT

Seems sort of early to talk Spring Suits, but we wouldn't bothered you with it if the manufacturer had not made a mistake and shipped them now instead of February 15. This lot is small, consisting of twenty-eight suits made up in strict accordance with the nobbiest Spring styles. Tailored from all wool, pre-shrunk and sponged serge in black, navy, copen, brown and tan. Jackets are 26 inches long, strictly tailored and trimmed with buttons. Lined with an extraordinary fine quality of silk Peau de Cygne. The skirts show the new tier effect and the added fullness draped over the hips. We haven't the proper space to display these suits now, as all our room and time is required for winter garments, so we have decided to sell this small lot out at a ridiculously low price. AND HE DID

HELLO-HERE'S A MEAT-MARKET-IT GO IN-

AND HE DID

IF BACKACHEY OR KIDNEYS BOTHER

Eat less meat and take a glass of Salts to flush out Kidneys—Drink plenty water.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush out the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated, and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Experienced Smokers "Roll Their Own"

When a man gets smoke-wise by experience, his taste craves a deep satisfaction that only the cigarettes he makes for himself, to suit his own taste, can fully gratify. He learns to roll his own fresh, fragrant cigarettes from ripe, mellow "Bull" Durham tobacco.

"Rolling his own" becomes a second nature with him. He takes the keenest pleasure in fashioning his own cigarettes with his own hands, to his own liking, and is proud of his skill. He is no longer a novice, but a thirty-third degree smoke veteran in the eyes of men the world over.

GENUINE "BULL" DURHAM SMOKING TOBACCO

(Enough for forty hand-made cigarettes in each 5-cent sack)

Cigarettes hand-made from "Bull" Durham have a rich fragrance and smooth, mellow flavor, wonderfully comforting and satisfying. This good, pure tobacco gives complete enjoyment and lasting satisfaction to more millions of men than all other high-grade smoking tobaccos combined.

Get a 5c sack of "Bull" today and "roll your own." Then you will appreciate why enough "Bull" Durham is sold in a year to make approximately 12 BILLION cigarettes—about as many as the total annual production of all brands of ready-made cigarettes in this country. And the "Bull" Durham sales are still growing.

ENGLISH GOLF PLAYER IS COMING TO THIS COUNTRY

(Associated Press Telegram)

New York, Jan. 27.—Ben Savers, for more than 40 years a prominent figure in British golf, is coming to America for a visit in May or June. Tom Patterson, the professional of the Knollwood Country club, who recently returned from a trip to Scotland and England, brings this information with him.

Savers, instructor to crowned heads, such as the late King Edward, plans to first go to Philadelphia to visit his son George, who came to America last summer. The elder Savers also will play a few exhibitions, and may make a trip to the west.

FITZSIMMONS CAN NOT ENTER RING

New York, Jan. 27.—The Supreme court today denied the application of Robert Fitzsimmons, one time heavyweight ring champion pugilist of the world, for an injunction restraining the New York Athletic commission from refusing to sanction his participation in boxing exhibition in this state. The commission held that Fitzsimmons, who is 51 years old, is too old to again enter the ring. Justice Seabury ruled that the commission was within its rights in making such an order.

RIDGELY TRACT

On Wednesday evening, January 21st, a number of neighbors and friends agreeably surprised Mr. Clarence Dicken by responding to invitations quietly sent out by his wife to spend the evening in their home in honor of his birthday anniversary. Music and a social good time were indulged in, and an oyster supper was served to the following: Mr. and Mrs. Calvin Borine and sons Clyde and Frederick, Mr. and Mrs. Charles Hendren, Mr. and Mrs. Art Hendren, Mr. and Mrs. Virgil Hendren, Mr. and Mrs. George Coyle, Mr. and Mrs. Frank Morrison, Mr. and Mrs. Charles Yowell, Mr. and Mrs. Elmer Tish, Mr. Parker, Miss Mrs. Parker, Mrs. Chas. Brubaker, Mr. Henry Jarrett of Ft. Scott, Kans., Mr. Earl Sprague, Mr. and Mrs. Clarence Dicken, Miss Hazel Dicken.

Earl Sprague and George Belt are spending a week in Delawareanville. A number from this community attended the dedicatory services at the Hickman M. E. church last Sunday.

There will be a box social at the school house Friday evening, Feb. 13. Arthur Taylor and family attended church at White Chapel Sunday and took dinner at George Chism's.

Miss Nora Nor. H. spent Saturday and Sunday with Miss Hazel Dicken.

State Public Health Exhibit Opens Tomorrow; Try for Advocate Prize

Wednesday marks the opening of the state public health exhibit in the Y. M. C. A. auditorium, free to the public, with its object the thorough instruction of the public in means of preventing the spread of infectious and contagious diseases, and teaching the principles of proper sanitation. Incidentally it will be the first day in which persons desiring to enter the Advocate's Better-Health contest may exchange Advocate coupons for state exchange coupons, three of which will entitle one person to enter the contest.

With \$50 in cash prizes offered for suggested means of improving health conditions in Newark, it is believed many will take advantage of the opportunity. Somebody is going to get \$25 for giving the ten best suggestions. Somebody is going to get \$15 for giving second best suggestions and somebody is going to get \$10 for giving the third best list of suggestions.

Which three people in Newark or Licking county will get the prizes?

Remember, The Advocate originally offered three prizes—\$15, \$10 and \$5, respectively. The Ohio Society for the Prevention of Tuberculosis has increased these awards by voluntarily contributing \$25 more to be added to the original sum, as specified in the letter from Dr. R. G. Patterson, secretary of the society, and published in Monday afternoon's edition of The Advocate.

City the coupon today. Go to tomorrow night's lecture, and get a state exchange coupon. Do this Thursday and Friday. Then when you have the three state exchange coupons, write out your suggestions and see that they are delivered to The Advocate business office with the state exchange coupons.

Your suggestions will be filed for

consideration of the judges, whose names will be announced later.

Citizens of this city who keep in touch with the state public health exhibit which opens Wednesday will have an opportunity of familiarizing themselves with the work of the visiting nurse—a branch of public health work which is becoming of increasing importance in Ohio.

Miss Catherine McNamara, R. N., who is connected with the state board of health, will be in Newark during the time the exhibit is here, and will devote her time in helping to make it a success.

Miss McNamara, who first gained her experience as a visiting nurse in Chicago, has until recently been on the visiting nurses' staff of the Ohio Society for the Prevention of Tuberculosis. In this capacity she visited various Ohio cities and gave demonstrations as to the local value of the work of the visiting nurse.

While in this city Miss McNamara will spend her time at the exhibit explaining the different features. One or two afternoons will be devoted to special meetings for mothers, at which time Miss McNamara will take up the question of feeding and caring for infants. She is also planning to speak in the schools, at one or two factory meetings, and before women's clubs. During the stay of the exhibit here, Miss McNamara will hold herself in readiness to answer any questions or give any advice which may be requested by any family in the city.

Her work will be supplementary to the general exhibit and to the lectures which will be given each night in connection. These lectures will take up various matters of public health interest, and will be illustrated by motion pictures during the entire week. Every thing in connection with the exhibit will be free.

Coupon THE ADVOCATE-BETTER-HEALTH CONTEST. Coupon. This coupon entitles the bearer to one State Exchange coupon, which will be given out at the close of each evening's lecture at the State Public Health exhibit, Y. M. C. A. auditorium. When three of the State Exchange coupons have been received by one person, the holder is entitled to entrance in the Advocate's Better Health contest. State Exchange coupons must be presented with "better sanitation" suggestions, and submitted to the Contest Editor, Advocate office, Feb. 5, 6 or 7.

HORSE BADLY INJURED IN A RUNAWAY

A horse and runabout belonging to John Miers, successor to the late Peter Ritzer, were much the worse for wear after a serious runaway accident Monday afternoon. Dr. T. E. Jones was called to attend the horse, which was suffering from severe lacerations of the hind legs. Shafts of the carriage were broken, but despite the long run made by the frightened horse, neither of the two occupants of the rig was hurt. Samuel Bassinger and Charles Fresher had been driving the horse. When they started to re-enter the runabout after making a delivery of meat at the Fitzsimmons cafe, First and Canal streets, the horse took fright and began running. It ran out Granville street, across Eleventh to

RESINOL RELIEVED ITCHING AT ONCE

And Completely Cured Skin Humor.

Nov. 1, 1912.—"At first little red spots were seen on my arms and body, which I noticed were getting larger every day. They itched me so much that I scratched myself until I bled. There were times when I stood up all night and scratched. I was troubled about three weeks, during which time I used — which seemed to do me no good whatever. Then, finally, I thought of trying Resinol Soap and Resinol Ointment. As soon as I applied Resinol Ointment I felt much relief. After using it a few times, I noticed the sore spots slowly fading away, and in about a month, I was cured. (Signed) Adolph Schoen, 742 Shepley Ave., Brooklyn, N. Y.

The soothing, healing balsams in Resinol Ointment and Resinol Soap, penetrate every tiny pore of the skin, clearing it of all impurities, driving away eczema, rashes, ringworm, psoriasis, and other eruptions, and making pimples and blackheads impossible. Prescribed by physicians for eighteen years. For free samples write to Dept. 16-M, Resinol, Baltimore, Md. Will Men Wear Tight Clothes?
There is an old saying that a tailor is a ninth part of a man. It is needless to say that this opprobrious classification does grave injustice to very worthy men. A tailor is just as manly and dignified a figure as a banker or a lawyer.
Still every type of character has its own failings. It is the fault of tailors as a class that the trade tends to develop too much love for the ornate. That is good as far as the female sex is concerned, as it is their mission to be beautiful. But applied to men, whose mission it is to be strong and resourceful, it is not appropriate.
Perhaps this over emphasis on decorative elements, which of course was once far more extreme, led to the slighting estimates stated by the proverb.
Tailors still try to "put over" new fashions more or less contrary to the desires of men and inappropriate to their needs. This may arise either from the desire for more adornment, or partly from the business fact that the oftener styles change, the more clothes will be sold.
This year the National Association of Clothing Designers, in session at Baltimore, planned the styles of 1914. It is given out that man's clothes will be tight, clinging to his form "like tights to the pony baller."
There have been periods when it was said the fashionable man had to use a shoe horn to put on his trousers. The garments looked it. No matter how many clothing designers and tailors may decree such styles, they will not be generally worn. A man may want to look like a fashion plate. But he does not want to feel like one when he rolls back his cuffs to do a day's work.

Strange that there should be all this howl about interlocking directorates, when the only business of a director nowadays is to go around to the annual meeting and throw a lot of proxies into the basket.

Dr. Anna Howard Shaw is getting the women to refuse to pay the income tax. This is what happens when Congressmen pass laws without asking their wives' permission.

Now that the total income tax exemption for married couples is placed at \$4,000 instead of \$7,000, what inducement is there for a woman to support her husband?

Horrible sufferings were endured in the battle of Ojinaga, but they are viewed with equanimity by Mexicans who have been accustomed to work hoeing corn.

How do the Browning Clubs expect they are going to interest people, when they didn't give any time to teaching the tango?

Humanity is so perverse that those who preach against hell often create a desire on the part of their listeners to go there.

Buck Kilby says that while he is willing to take his share of the blame, he refuses to accept any of the responsibility for the scarcity of wild game.

The rule is that the girl who attempts to regulate the habits of her young men friends never has any young men friends to regulate.

Commencing upon Walter Johnson's refusal to join the Federal league, Eph Wiley says \$24,000 is no recompense for being buried in some out-of-the-way place.

Income Tax Questions
Many people who have received blank schedules on which to make returns for the new federal tax are puzzled. They are asking for interpretations of the law and are not familiar with the many provisions of the new statute. In order to be of assistance, the Advocate has retained one of the most competent attorneys of Newark who will endeavor to furnish the desired information without charge.

The Advocate will submit all questions to the attorney, and answers will be published in this newspaper. The questions are to be limited to 100 words. Those submitting questions must sign their own names but the questions will be printed without the writer's name. Send your question to the Income Tax Editor, care of the Advocate.

Comic Songs.
Could anything, my friends, be sadder, than is the modern comic song? Of sense or taste it has no shadow, in sound and fury it is strong. Its humor is a thing distorted, its chorus treats of "spoons" and "moons." It's time the authors were escorted to some stone hatch designed for loons. At eve I wind my phonogrammer, and then a comic record start; the music gives me katzenjammer, the words just rend and break my heart. It always has the same old burden: Come out and spoon beneath the moon! The sickest rot that e'er was heard on this globe since Adam hummed a tune. Oh, Ada Jones and Billy Murray, and all who sing for graphophones, suppress this nuisance, in a hurry, and sing good songs in dulcet tones! So many songs with heart and gleaming, so many touch the heart and please, there's simply no excuse for screaming such idiotic things as these. Kill off the "spooning" and the "moonings," of which the loud voiced warbler tells: one song you heard your mothers crooning was worth ten million modern yells.

ASKS DOCTORS TO PRESCRIBE RHEUMA
Agent Greenburg Shows Faith in One Rheumatic Remedy After Six Years' Suffering.

"2839 Cottage Grove Ave., Chicago, Ill., March 17, 1913.—For six years, on and off, just as the weather would change, I have suffered, agony from Rheumatism, the pains in my big toe, left foot, knees, hips and groins being almost unbearable. At such times I hardly dared take a step for fear of another attack. I spent many dollars and became thoroughly disgusted with so-called Rheumatic remedies, until I tried RHEUMA. I was buying some liniment when your Peoria, Ill., agents recommended your remedy. I have since asked physicians to prescribe RHEUMA for Rheumatism. The train crews on the Rock Island Railroad, who saw me limping along using a cane, will verify my statements. Yours most sincerely, J. K. Greenburg, News Agent, Rock Island Railroad.

Anybody can afford to pay 50 cents to get rid of terrible Rheumatism, Sciatica, Gout, Lumbago, and that's all RHEUMA costs at Evans' Drug Store and they say if it does not do all that is claimed for it, money back.

RHEUMA costs very little, but it is one of the best remedies you can find to drive Rheumatic poisons from the system and bring back perfect health.

New Taxation Law.
I am a reader of your valuable paper and have been for years, but I've never written anything to it, because I didn't feel capable of it.

I would like to know through your paper, a few words in regard to our new Taxation Law? Under the old law we were taxed from the 1st of April to the 1st of April; now I understand that the assessors are coming around this year in February, and according to that we will be taxed or rather assessed twice for two months. We will have to pay taxes twice for the bread, which we eat, and the hay and feed, which our stock eat, during the months of February and March. The old law allowed enough provision for one year for man and beast. A year or two ago everything was assessed full value and taxed one per cent., now full value and what?

Will some one please explain a little of this, not only for myself, but for many others who do not understand it.

Wisdom from Washington
Washington, Jan. 27.—(Special.)—Republicans cannot secure reelection to the idea of being out of power. They were in control so long and dominated everything with such iron hands that they feel strange when they find themselves without authority and seldom consulted as to what is to be done in national affairs.

Neither at the White House nor in the different committees at the capitol are the Republicans asked what they want or what they will support. It is true that President Wilson sometimes sees Republican senators and representatives—at their request—but that is not to ask advice or seek support. It is true that Leader Underwood does consult Minority Leader Mann, but that is more for the convenience of members than as to what shall be enacted into legislation. On the latter point the Democrats go their own way.

A Republican Wall.
I listened to a wall by a Republican the other day. Congressman Butler of Pennsylvania, whom everybody likes, told his sad story.

"For seventeen years I have been a member of an important committee in the house," he said, "and yet I am not consulted nor my views asked on legislation which is being prepared. They are making up the naval bill, fixing the number of battleships and everything else without saying anything to me. When they get ready they will invite the Republicans in and tell us what they propose to do."

"I don't blame them a bit," he continued, "for that is the way we treated them when we were in power. But it seems hard after seventeen years to be shut out this way."

Something For New England.
While the senate was discussing the proposition to appropriate \$400,000 for building a railroad in Alaska and Senator Borah was supporting a provision which would give something like \$25,000,000 for irrigation, all for conservation, Senator Gallinger remarked: "It would be in the line of conservation if the government should appropriate \$50,000,000 to remove the rocks from the farms in the states of New England and thus give relief to the poor farmers."

"It would not be worth while to start with \$50,000,000," remarked Borah.

NOTICE OF APPLICATION OF LICENSEE FOR REMOVAL OF LOCATION.
The following licensee has this 26th day of January, 1914, filed his application with the Licking County Liquor Licensing Board, at Newark, Ohio, for removing his saloon:

THIS NEW MEDICINE SAVES YOU MONEY
We are druggists right here in your town and make a living out of the drug business, but it is because people have to have drugs and not because we like to see people suffer—we don't. Our duty is to render the best service we can, and when someone is ailing we are interested in seeing them take their particular trouble. We don't believe there are such things as "cure-alls," as we don't want you to spend more than you have to. Some of you get small wages, and when you're sick, none at all, and you should get the most you can for your money.

We recently came across a new remedy for increasing strength and building up people who are run-down and enervated. We know that a slight trouble sometimes grows into a serious one, and to stop it in the beginning, will save you money in the end. This new compound is called **REXALL OILIVE OIL Emulsion**. It is the best remedy, when you are run-down, tired out, nervous—no matter what the cause. It doesn't merely stimulate you and make you feel good for a few hours, but takes hold of the weakness and builds you up to a healthy, normal condition. It is a real nerve-food tonic and builder of good blood, strong muscle, good digestion. It contains Hypophosphites, which tone the nerves, the blood and the entire system. Pleasant to take. Contains no alcohol or habit-forming drugs. We promise that if you are not perfectly satisfied with it, we'll give back your money as soon as you tell us. Sold only at the 7,000 Rexall Stores, and in this town only by us. \$1.00. Frank D. Hall, 10 North Side Square, Newark, O.

Samuel Howard, Harry Haman and "Sale" McCulla were arrested about 11 o'clock Monday night by Patrolman Bosconov and Headquarters Officer Moore and are held at the city prison slated "investigation." The police charge the young men with attempting to take a peanut roaster on Beech street. McCulla was also charged with carrying concealed weapons but it is possible that this charge will not be prosecuted as it is claimed that McCulla is sworn in as a special constable in a local magistrate's court.

THIRD DEBATE TO PICK TEAM FOR NEWARK SCHOOL

The third preliminary debate by which speakers are selected to compose the two debating teams to represent the local High School at the annual debate next March will be held Wednesday night at the High school auditorium. This third debate will be given in two sections with six speakers in each section. One section will speak Wednesday night at 7:30 o'clock and the second section Thursday night at 7:30 o'clock. The speakers to represent the local school will be chosen from the winners of these two debates and those who were successful in the two preliminaries already held. Three judges will be selected to pick the winners. The question for debate is "Resolved that the short ballot should be adopted for all municipal election."

KILLED IN FALL THROUGH FRESTLE

(Associated Press Telegram)
Canton, O., Jan. 27. Gustave Berg, 30 a molder, while walking on a Wheeling & Lake Erie railway track at 5:30 this morning on his way to work tried to get out of the way of an approaching train. He fell through a trestle and was killed. A workman nearby heard the rattling of Berg's dinner pail he was carrying, investigated and found the body below.

JUDGMENT OF SETTLEMENT IS ENTERED

Damage Suits Against Bridge Company Will Not be Tried—Court House News.

In the case of M. H. Corey vs. H. E. Williams and the Illinois Bridge company, a judgment of settlement was entered. Plaintiff sued to recover damages for personal injuries sustained in an accident while engaged in the construction of the bridge on South Second street, this city.

In the case of L. J. Ayres against the same defendants, a settlement was also effected without trial. Ruth Jarvis, an infant, etc., vs. Phil Vogelmeier, continued on account of the absence of a material witness. Plaintiff brings the suit to recover for injuries alleged to have been sustained by being run over by a cab in this city some months ago. A. L. Cooperider vs. B. & O. Railroad company; the case had been assigned for trial to the jury on Tuesday, but, on application of plaintiff, a continuance was ordered, on account of the absence of a witness who lately had an eye put out. The suit involves a claim of \$350. Plaintiff sues to recover on account of a shipment of two cars of hay which he alleges had a bill of lading attached and that the cars were delivered by the railroad company without first requiring the payment of the amount specified in the bill.

Wason Price vs. J. H. Hawley; leave given to file a supplemental and amended answer setting up, as a bar to the further prosecution of the action, the judgment of the Supreme court in a case lately heard there in regard to the same controversy. It is claimed that the case recently decided by the Supreme court was between the same parties, involved the same facts and issues and the same questions of law.

The following re-assignment of civil cases, by Judge Fulton, was made Tuesday:

Wednesday, Jan. 26th.
15966, Thomas Donley, Admr., vs. Will D. Harris, Scott; Florys.

Two Divorce Matters.
Two divorce suits were filed in common pleas court, Tuesday. James M. Oliver seeks a divorce from Grace A. Oliver, to whom he was married Nov. 22, 1899, charging willful absence for three years. He is a piano salesman.
Purdie Harger charges Smiley Harger with neglect of duty, extreme cruelty and an ill nature. Judge Fulton granted a temporary order restraining him from disposing of real estate pending Feb. 3 suit. They were married Feb. 3, 1898, and have a son, aged eleven years. She asks divorce and custody of the child.

IT COULD ONLY HAPPEN AT TOLEDO

(Associated Press Telegram)
Toledo, Jan. 27.—A few minutes after he had arrived at his store at 7:45 this morning and while scores of persons were in the immediate vicinity, W. C. Worrell, 56, proprietor of a news stand and cigar store in the Seashore, 993 Jefferson avenue, was held up by two men who beat him with bullets until he was nearly insensible and robbed him of more than \$50. Worrell received three severe scalp wounds and his face was badly bruised. Police are on the trail of the robbers, but no arrests have been made.

SIGNED THREE STARS.

(Associated Press Telegram)
Baltimore, Jan. 27.—Manager Otto Krause of the Baltimore Federal baseball club upon his return today from a long western trip, said he had signed three new players while away. He refused to give their names but said that two of them were major league men and the third played with a minor league team last year, but belonged to a big league club.

LIKE FATHER, LIKE SON.

(Associated Press Telegram)
Toledo, Jan. 27.—With his father, A. W. Parrott, 22, locked up on Monday night at central police station charged with being crazing, the two sons, Jack, 12, and Harold, 9, were captured at 1 o'clock this morning by Patrolman Reiman and Coffey after the boys had been taken from the Miller Brothers grocery and taken to the city register.

CLAIM THE FARM WAS DAMAGED BY OHIO ELECTRIC

When nature arranges rivers and things to suit herself, they ought to "stay put," so far as a railway company is concerned. It seems and because the Ohio Electric Railway company chose to change the course of a tributary of the Patterson and Licking creeks, in Madison township, Sarah E. and William Hughes ask the company to pay \$9,000 damages against thirty-six acres of their farm land.

The petition filed by Attorney Phil B. Smythe for the plaintiffs, says Mr. and Mrs. Hughes own 150 acres in Madison township, and that adjoining their farm on the west is that of John P. Lamb, with 92 acres and still farther west is 176 acres of Clarence Fleming's land. In 1834 the Ohio canal was built across the three farms and through the bed of Patterson creek, which then emptied into the canal and formed a feeder, until the railway company put its line along the newly acquired right-of-way. More than twenty-five years before the railway company got into the territory the owners built a joint ditch along the Hughes-Lamb line, running south. Later an additional ditch was built, and then when the railway company built its track, it built a ditch along the track.

It is contended that Dec. 1, 1913, the company built a dam across the ditch, causing the water to back up and flood the Hughes' land. The plaintiffs promptly tore out the dam whereupon on Dec. 15, the railway company is alleged to have rebuilt it. To the other day the plaintiff went out to tear it out again and found that the railway company had beaten them to it and had torn the dam out of its own volition, declared Attorney Smythe.

NEW LEAGUE IS ORGANIZED BY MEN OF CHURCH

On Sunday last the men of the East Main street M. E. Church invited the Christian Men's Union to meet with them at the Sunday afternoon meeting. Mr. S. Orr called the assemblage together and a conference was held as to the relative merits of organizing a Personal Workers' League.

The organization was effected with the following officers: S. S. Orr, president; L. K. Stage, vice president; Matthew Heck, treasurer; Festus T. Hoover, secretary. The officers will meet with the Christian Men's Union on Friday night of this week to make further preparations for the carrying on of the work.

CASE REPORTED TOO LATE TO SAVE SIGHT

Many Ohio Children Blind as Result of Neglect.

A large proportion of the children who are listed "blind from accident" at the State School for the Blind are in reality so from ignorance and neglect on the part of the well-meaning parents, who assume that the overworked general practitioner of the countryside has the expert knowledge of the eye specialist.

Here is a case in point which recently came to the attention of the Ohio Commission for the Blind. Unfortunately this case was reported too late to be of service to the child, except in giving advice to the stricken parents as to the best way to meet the problem of blindness, in an otherwise normal active boy.

While at play, the child fell and the point of a sharp pair of scissors en-

tered one eye. The injury was dressed by a general practitioner; the eye was painful for a while, but after that it did not demand attention, as the child was able to see with the good eye.

Months later, the good eye began to give trouble, and the patient was taken to a physician, who immediately advised consultation with a specialist. The operation for removing the injured eye came too late, as the good eye had become involved and total blindness resulted.

Had a specialist been called in time there might have been a reasonable chance of saving this child's eye. Neglect and ignorance probably were responsible for this boy going through life in darkness.

Schools of This Country Dismal Failures

By JAMES J. HILL, Railroad Magnate

THE COMMON AND HIGH SCHOOLS OF THIS COUNTRY ARE DISMAL FAILURES. I AM SORRY TO ADMIT IT, BUT THOUSANDS OF STUDENTS ARE GRADUATED EACH YEAR FROM OUR SCHOOLS BELIEVING THAT THEY HAVE RECEIVED AN EDUCATION, WHEREAS THEY HAVE NOT. ACCURACY IS NOT TAUGHT IN THE SCHOOLS, AND ACCURACY IS THE MAIN ESSENTIAL.

I would rather take a boy who has had a widowed mother to support and who has had to get his education by working for it than take a graduate of our schools. The boy realizes that he doesn't know everything and what he learns he masters thoroughly. The students of our schools are turned out UNFIT FOR THE STATE OF LIFE THAT THEY ARE IN. So much time is spent by classes at the colleges in athletics and reunions and different things that I am surprised that college graduates know as much as they really do. I do not underestimate the value of the trained mind because I believe that men like John Marshall have done more for this country than any of those who have led the armies in our history.

The Varying Cost of Education.

A certain Yale graduate, for many years a member of the faculty and always a close observer of the home undergraduate, once (in a moment of exasperation, we take it) let drop a significant remark. The burden of the remark was that a majority of the students attending Yale ought to be taxed some seven or eight thousand dollars a year in return for the privilege of attending college, while the remaining small minority should be paid double that amount for contributing themselves to the undergraduate community. Without doubt this observation, like the famous reports of Mark Twain's death was slightly exaggerated. But it was not without its very considerable sum of truth.—Yale Alumni Weekly

Where ignorance is bliss, you will find the happiest people in the world.

THE ARMY.

No sane man today can possibly think a nation situated as the United States is with respect to the world could do without an army. All stable government rests upon the possibility of using force to secure obedience to its decrees. Judicial tribunals are successful in operation not because the unsuccessful suitor is satisfied with the decision, is pleased with the reasoning of the court adverse to his contention or is overcome by the magnetism of the judge in rendering his judgment. They succeed because of the knowledge of the defeated suitor that the whole force of the state is back of every judgment and that to resist would be worse than useless. And so it must be with nations until another day has dawned and many of the attributes of men which now guide their conduct have been changed for other and different ones. It is absolutely essential for any nation today to maintain sufficient force to secure the carrying out of its decrees.—Secretary of War L. M. Garrison.

Long Hours For Employees Economically Unprofitable

By WILLIAM C. REDFIELD, Secretary of Commerce

IT will be far better for the pockets as well as the peace of mind of employers if they work their men ONLY EIGHT HOURS A DAY. I believe that when our factories are run so that the workmen go home without being fatigued from overlong hours we will be able to compete successfully against all comers in the markets of the world. I could not afford to employ in a factory men who are half sick, who come to work after having had bad breakfasts, who are partly poisoned. They would be ECONOMICALLY UNPROFITABLE. And yet fatigue is part poison.

New Line of Art.

The redheaded and dissatisfied boarder was a large man with a large appetite. After dinner he went out into the narrow yard, shook both his fists at the silvery moon, hurled several imprecations toward the congress of the stars and burst forth into a picturesque and voluminous flood of abuse which was devoted entirely to the landlady. One of the other boarders who had been at the house a long time, thereby accumulating a pallid look and a palate with corns on it, drew near timidly and ventured to ask what the special kick was.

"What's the matter?" echoed the large man. "That old dame's the first woman I ever knew who could literally paint food on a plate."—Popular Magazine.

Too Much For the Scot.

A Scottish farmer paid a visit to a south of England cattle show and while walking around got talking with a native farmer. Neither could well understand what the other said. The Scotchman got a little nettled at this and put it down to the Englishman's stupidity.

"Man," he said at last, "yer cows moo a' right, and yer cocks crow quite plain, but I'm hanged if I can mak' you oot!"—Exchange.

THIS is a sample of one of the cards shown in the Ohio State Public Health Exhibit, through which the State Board of Health hopes to generate a greater interest in health matters in this city and county.

This is only one of a dozen means the exhibit resorts to in driving home the great facts which everyone should know about health matters.

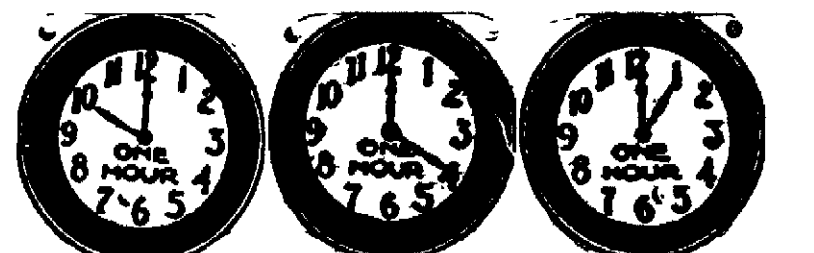

The same general message is carried by nightly moving pictures, electrical models, etc.

Wealthy Women of London Very Charitable

By Mrs. MARY E. IDE of Chicago, Well Known as a Prison Reformer

I WAS impressed with the amount of charity work done by the women of London. I was given to understand that the wealthier ones give HUNDREDS OF THOUSANDS OF DOLLARS TO THE POOR EVERY YEAR. The Duchess of Marlborough and other American duchesses are leaders in this work. The general result of this method of charity, however, seems to be unsatisfactory.

IT APPEARS TO TEACH THE CHILDREN OF THE POOR TO BECOME PROFESSIONAL BEGGARS, THE CITY HAVING BECOME INFESTED WITH THEM. IT IS CERTAIN THAT MANY FAMILIES LIVE ON CHARITY THROUGH SHEER INDOLENCE. I BELIEVE IT WOULD BE BETTER IF THE MONEY WERE DEVOTED TO STARTING COMMUNITY FARMS AND CREATING OTHER FORMS OF LEGITIMATE EMPLOYMENT.

The worm will turn if trodden upon, but it hasn't anything on a banana skin, at that.

The Mind Expands As Health Returns

Quick Improvement is Noticeable
When Proper Aid to Nutrition
Is Given.

A low state of the general health is now the accepted cause of backwardness in children. So in the case of a backward child it is best to look towards building up the health. It will usually be found that the main trouble is in the food, in lack of assimilation and digestion. Hence care should be taken in the kind of food given to the child. This with plenty of air and exercise, should bring about a change for the better.

Watch the condition of the bowels to note whether the waste is being passed off or not, or whether it is being passed too freely. If either condition prevails give a small dose of that gentlest of all laxatives, Dr. Caldwell's Syrup Pepsin. Thousands of mothers will testify to the wonders it has wrought in the lives of their own children, and for that reason lessons of families like those of Mrs. Daisy McBroom, Hillsboro, Ind., are never without it in the house. She is the mother of Lucille and has been using Dr. Caldwell's Syrup Pepsin for Lucille since she was two. Mrs. McBroom says it saved Lucille's life. It is the standard family medicine in the McBroom home.

It is pleasant to the taste and so perfectly safe, that it is given to infants, and yet is equally effective.

LUCILLE MCBROOM

for grown people. All druggists sell it and the price is only fifty cents and one dollar a bottle, the latter for families who need it regularly. Dr. Caldwell's Syrup Pepsin has no equal as a cure for constipation, indigestion, biliousness, headaches, sour stomach, liver trouble and kindred complaints. It has so many advantages that those who once use it, never alter their habits. It cures, lifts, pills and other coarse remedies for they are seldom advisable and should never be given to children.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 119 Washington St. Monticello, Ill. A postal card with year name and address on it will do.

he feels the actual quiver of the earth.

The rapid succession of this and other thrills with the intense interest in the subject is making Lyman H. Howe's presentation of the Panama Canal which comes to the Auditorium on Thursday and Friday with matinee Friday, quite the film wonder of the age.

"Freckles," the most popular story of the day, has been dramatized by Neil Twomey, and under the direction of A. G. Delamater "the producer of clean plays" it will be seen at the Auditorium next Saturday matinee and night. It has created a furor among theatergoers largely through its immense popularity as a novel, but the play is said to be even stronger than the book. Mr. Twomey has kept strictly to the text and all the memorable scenes of the story are faithfully produced in the stage version. The music and the songs of "Freckles" are a feature in themselves. They have been composed by the Viennese musician, Ansel Friedland. These songs, which will not be heard except in "Freckles", are most beautiful and tuneful. The play is taxing the capacity of theaters everywhere.

The Orpheum.
One of the best bills of the season is holding forth at the Orpheum for the first three days of this week. "Peck's Bad Boy," the always laughing comedy with ten real comedians including the youngest child performer now appearing on the vaudeville stage. This act has plenty of singing and dancing by real artists and is one that will surely please.

Norris, Evans and Fuller. The original "Moose Trio" are some more singing boys. At the opening matinee, after four encores it was with the greatest difficulty they succeeded in pulling themselves away from the over appreciative audience.

Everton, the spinning marvel is one of the best of his kind on the stage today.

Wheeler and Wilson, in their novelty singing and dancing act. It is one big laugh from start to finish. The show is one that can be fully appreciated by anyone who wants to forget their troubles and spend an hour of laugh. The Orpheum's one closes the show with a very good play.

FOR FROST BITES AND CHAPPED SKIN.

For frost bitten ears, fingers and toes; chapped hands and lips, chilblains, cold sores, red and rough skins, there is nothing to equal Bucklen's Arnica Salve. Stops the pain at once and heals quickly. In every home there should be a box handy all the time. Best remedy for all skin diseases, itching eczema, tetters, piles, etc., 25c. Recommended by Frank D. Hall.

APPROPRIATION BILLS DEBATED

Washington, Jan. 27. [Special.]—Although only one of the thirteen big appropriation bills has passed the house and not even one of them has been considered in the senate, talk about adjournment of the session has been going the rounds. It is stated that the president expects congress to finish its work early in June, and an intimation is made that congress ought to heed the wishes of the president.

Right on top of these White House intimations came the message on trusts furnishing enough food for months of talk in congress. Meanwhile congress went along with the appropriation bills slowly, deliberately and without apparent haste. The senate has been called the slowest deliberative body in the world but the house, considering appropriation bills, beats the senate far and away.

Chance For the Little Fellow.

Appropriation bills afford an opportunity for the little fellow, the man who makes no stir on the big questions. Under the five minute rule which governs appropriation bills every member of the house has the right to offer an amendment to every paragraph and talk five minutes on that amendment. Many members avail themselves of that privilege under the guise of paring down the bills. All the work of defeating small amounts by points of order, another weapon of the little fellow, is undone in the senate, where the committee fixes up the bill, and when the senate speeds up it is passed in half a day. Days are consumed in the house over trivialities on appropriation bills.

And yet they talk of an early adjournment.

For the Canal Force.

Senator Walsh thinks that the force which has completed the Panama canal can be utilized to good advantage in building the railroad in Alaska. He says that no better corps of men were ever assembled than those who have made the canal possible. He speaks in the highest terms of the army engineers and also of the civilian employees who have furnished the brains and the strength to build the canal.

Might Feel Sorry.

One day John Sharp Williams was talking and Senator Lane wanted to interrupt him. Williams wanted the Oregon man to wait until he had completed his statement.

"But I want to catch you right there," said Lane.

"You may feel sorry after you have caught me," replied the Mississippi senator, and murmured something about being the kind of an animal that fights worst when he is cornered.

No Frontier Left.

Men who have known something about frontier life thought there might be such an existence in Alaska. Delegate Wickersham of the big territory explained:

"Gentlemen talk about a 'prairie schooner' and a 'cowboy' existence in Alaska, as if somebody could go to Alaska in a 'prairie schooner' and be a 'cowboy.' The gentleman from Oklahoma (Davenport) did not go to Oklahoma in a prairie schooner. He went in a Pullman palace car, built at the expense of the surrounding states."

"I went to Oklahoma as a farm laborer," retorted Davenport. "I rode in the smoker of a railroad train, as you did in going to Alaska, for we were both broke."

Of course Wickersham could only ride part way in a railroad car of any kind, but went by water part of the way. It may be necessary to explain that a "prairie schooner" is a wagon covered with canvas, which was the transportation of the pioneer days.

Is School Out?

"Is school out?" asked a prominent Democratic member of the house, going toward the chamber just after President Wilson had concluded his recent address on the trusts. This is one of the southern members, who says he is old fashioned in his beliefs and does not like the newfangled ideas, such as presidential primaries, presidential addresses to the two houses of congress and other things which came in on the progressive waves.

At the same time the interest of the people in the president does not seem to flag. At least fifty of the ninety-five senators attended the joint session, and the attendance of representatives was still larger in proportion. As usual, the galleries were filled.

Days of Long Ago.

Reference was made in the Alaska debate to the railroad jobs, construction companies within railroad companies, by which enormous fortunes were made by men who built railroads long ago.

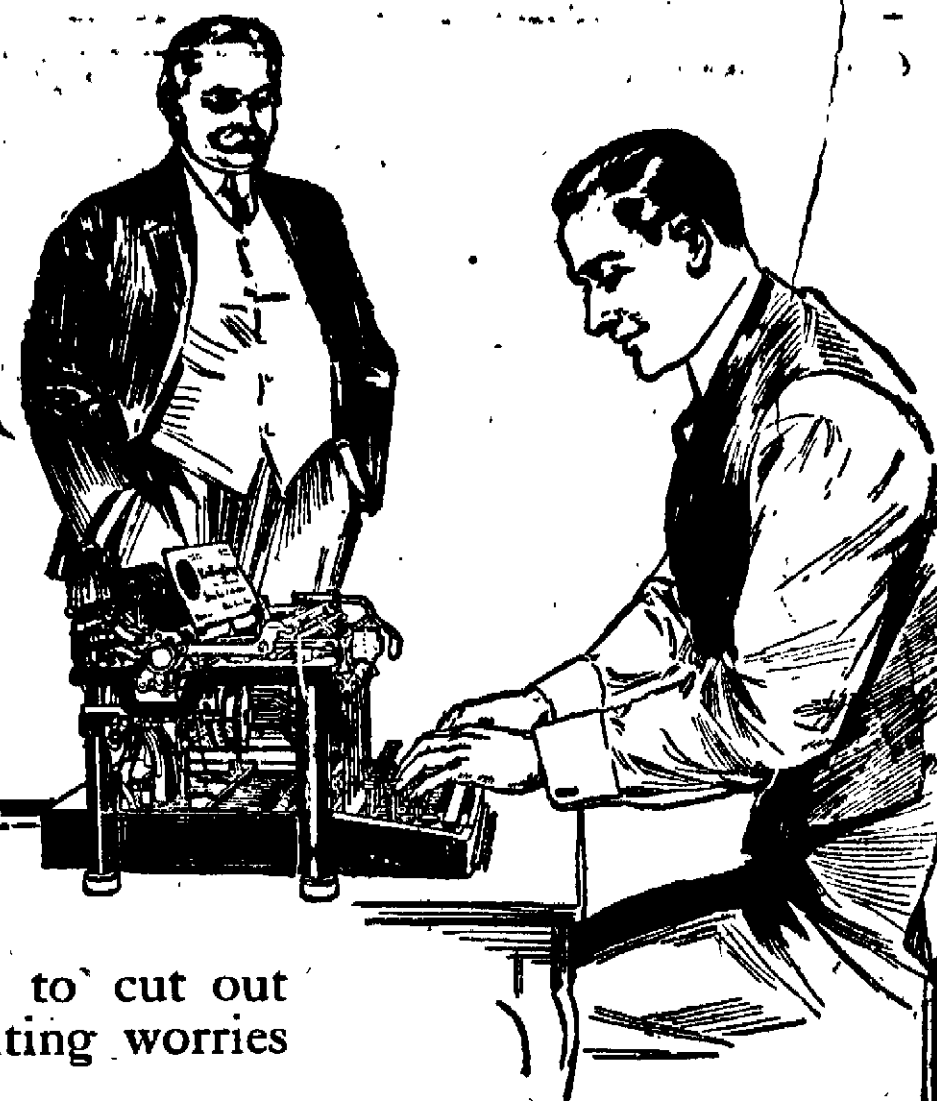

"Those were the days of Jay Gould, Jim Fisk and Tom Scott," said Senator Walsh of Montana. "We will never see their like again."

Cuts Half the Labor Cuts All the Leaks

The way to cut out
your accounting worries
is to use the

Remington

Adding and Subtracting

Typewriter

(Wahl Adding Mechanism)

This machine *cuts half the labor* by combining two operations, writing and adding, in one.

It *cuts all the leaks* by cutting all the errors. The machine itself is error proof and it spots any errors made by others. As a mechanical check, it is perfect.

Either one of these things makes the Remington Adding and Subtracting Typewriter worth many times its cost to you. And remember that the range of this machine covers billing work, statement work—any kind of work where writing and adding are done on the same page.

A demonstration, *on your work*, will be given on your request—no obligation involved. Send for our illustrated booklet, "The New Remington Idea."

By Taking Lydia E. Pinkham's Vegetable Compound.

Chicago, Ill.—"I must thank you with all my heart for Lydia E. Pinkham's Vegetable Compound. I used to go to my doctor for pills and remedies and they did not help me. I had headaches and could not eat, and the doctor claimed I had female trouble and must have an operation. I read in the paper about Lydia E. Pinkham's Vegetable Compound and I have taken it and feel fine. A lady said one day, 'Oh, I feel so tired all the time and have headache.' I said, 'Take Lydia E. Pinkham's Vegetable Compound,' and she did and feels fine now."—Mrs. M. R. KARSCHNICK, 1438 N. Paulina Street, Chicago, Illinois.

Human Procession

While the German people will take a day off from their labors to sing "Hoch der Kaiser"—or attend socialistic meetings—today, Emperor William is not likely to be very happy on this, the fifty-fifth anniversary of his birth. In the first place, the pesky socialists are very busy and constantly gaining in numbers, and Emperor William hates socialists as the devil hates holy water. In the second place, the Kaiser has recently, and not for the first time, experienced how sharper than a snake's incisor it is to rear a thankless chieftain. Thirly, and far from being least of his troubles, Wilhelm is feeling the high cost of living. During the past year of his reign the Emperor's expenditures have mounted up at an alarming rate, and have surpassed those of any previous year of his reign. The marriage of his only daughter, the entertainment of King George and the Czar and their large suites, and the festivities and incident to the jubilee of his reign, put a strain on the Kaiser's pocket money. Indeed, Christmas found the Kaiser so pinched that he could afford only \$10,000 for presents for his various relatives.

Most people could manage to struggle along on the Kaiser's income, however, for his civil list amounts to \$4,800,000 a year, and the empire act of grace gives him \$700,000 more, while his investments in various commercial enterprises at home and abroad adds considerably to the sum. It is estimated that his income is in the neighborhood of six millions a year, and yet he is complaining bitterly of the poverty that is dogging his footsteps, and threatens to sell another of his three-score palaces in order to relieve the strain. In the meantime it is estimated that no less than a hundred thousand workmen in Berlin are out of employment, and are deprived of everything but the bare necessities of existence. The Emperor has often declared his inability to understand why so many Germans should want to substitute a socialistic republic for the benign rule of "me und Gott." The Kaiser's income of six millions a year, and the spectacle of hundreds of thousands dwelling in direct poverty, might be connected as cause and effect by some fanatical and anarchistic observers.

While the Kaiser's birthday is a legal holiday through out the empire, very few now spend the day in singing the praises of the Emperor, or in praying for him in the churches. Socialistic meetings are a feature of the holiday. Earlier in his reign the Emperor was highly indignant at such manifestations of less majestic and ordered the speakers, sent to jail. Nowadays the prisons and jails of the whole empire are not large enough to hold a small part of those who observe the Kaiser's birthday by advocating his overthrow, and the Kaiser has given it up as a hopeless job. The Kaiser now seeks to conciliate the disciples of Marx, but there is little doubt that when the Crown Prince ascends the throne the storm will break. The Crown Prince has openly advocated the suppression of the socialists by force.

Samuel Gompers, who was recently re-elected president of the American Federation of Labor for a thirty-third term, was born in England sixty-four years ago today. The federation of which he has so long been the virile leader is composed of 113 international and national unions of the United States and Canada, and represents about 27,000 local unions with a total paid membership of two million men and women. The general of this great labor army was the son of a cigar-maker, and after coming to America, at the age of thirteen, took up his father's trade. He became a union member at fifteen. He was one of the founders of the American Federation of Labor, and has been its president since 1892.

Banks Protecting Themselves Against Disaster

By ELBERT H. GARY, Chairman of United States Steel Corporation

THERE is no ground for fear in regard to the financial condition of the country. It seems to me, on the whole, we have been getting stronger and stronger from year to year and that the SUGGESTIONS OF POSSIBLE FINANCIAL DISTRESS are calculated to make the banks and the money interests MORE DILIGENT IN PROTECTING THEMSELVES AGAINST DISASTER. We now have the government figures, which show the agricultural products of the year amount in value to nine billion dollars, and with the energy and activities of a great and growing population there is bound to be a great deal of business.

NEVERTHELESS THERE ARE CERTAIN THINGS THAT WE ARE AWARE OF WHICH WE MUST NOT OVERLOOK. IT SEEMS TO ME IT WOULD BE IMPOSSIBLE TO ENACT LEGISLATION SUCH AS THE INCOME TAX LAW, THE RADICAL CHANGE IN THE TARIFF LAWS, THE CURRENCY LAW AND A POSSIBLE REVISION OF THE PRESENT PLAN OF CONTROLLING THE LARGE CORPORATIONS CALLED TRUSTS WITHOUT PRODUCING A SEVERE NERVOUS SHOCK TO FINANCIAL AND COMMERCIAL FAIRS.

Lots of fellows make tracks without leaving any footprints in the sands of time.
No labor union has ever been organized that could regulate the wages of sin.

TURKISH BATHS.
The proper way to take a Turkish bath is to devote plenty of time to the process. On entering stay in the first room, the moderately hot one, until all feeling of oppression has passed off. Then move on into the second, the hot room, as it is called. The third one, called the oven, should seldom be used, as the heat is too intense to be safe. It is best to be content with a mild perspiration at first and to stay in too short a time rather than too long. People are apt to think that the more they perspire the better they will be, but that is not the case, and what is more, there is an element of danger in prolonging the process. Taken quietly and with discrimination, Turkish baths are one of the greatest boons to suffering humanity.—New York Telegram.

CHILD'S PAINS.
A foul, disagreeable breath, dark circles around the eyes, at times feverish, with great thirst; cheeks flushed and then pale, abdomen swollen with sharp cramping pains are all indications of worms. Don't let your child suffer—Kickapoo Worm Killer will give sure relief. It kills the worms—while its laxative effect aid greatly to the health of your child by removing the dangerous and disagreeable effect of worms and parasites from the system. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone. End such misery now! Get the small bottle of "Eli's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasal discharges and a feeling of cleansing, soothing relief comes immediately.
Don't lay awake tonight struggling for breath, with head stuffed, nostrils closed, hacking and blowing Catarrh or a cold, with its running nose, foul mucous dripping into the throat, and raw dryness is distressing but truly needless.
Put your faith in just one in "Eli's Cream Balm" and your cold or catarrh will surely disappear.

will take notice that Phillip S. Smith, executor of the estate of Gideon Sutton, deceased, on the 15th day of January, 1914, filed his petition in the Probate Court of Jackson County, Ohio.

alleging that the personal estate of said Gideon Sutton is insufficient to pay his debts and the charges of administering his estate; that he did seized in fee simple of the following described real estate:

First Parcel—Situating in the County of Licking, State of Ohio, Township of Licking, and in Range Twelve (12), Township one (1), Quarter one (1), and being land purchased by the said Gideon Sutton, and being the south one-half of lot number two (2) containing two hundred (200) acres, more or less.

Second Parcel—Situating in the County of Licking, State of Ohio, Township of Franklin, and in Range Eleven (11), Township one (1), Second (2) Quarter, and being the south one-half of lot number two (2) containing Fifty-four (54) acres, more or less.

Said two above described parcels being the same real estate devised to Gideon Sutton by the will of Jasper Sutton duly recorded in the Probate Court of Licking County, Ohio.

That Julia A. Sutton, the widow of said decedent, is entitled to a life estate in said real estate, and that The Ohio Baptist Education Society claims to have the fee simple of the same for \$1,425. The prayer of the petition is that The Ohio Baptist Education Society be required to answer setting forth the particulars of its mortgage lien thereon, and that so much of said property as is necessary be sold to pay the debts and charges aforesaid.

Notley Abram Rowe and Iiah Aletha Rowe are hereby notified that they have been made parties defendant to said petition, and that they are required to answer the same on or before 25th day of March, 1914.

GIRLS! LOTS OF BEAUTIFUL HAIR NO DANDRUFF--25 CENT DANDERINE

Hair coming out? If dry, thin or faded here's an inexpensive, delightful tonic—Grows hair.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle

and scrappy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.

DOG WHICH BIT YOUNGSTER HAD CASE OF RABIES

There is immediate danger of a serious epidemic of rabies in East Newark, particularly in the vicinity of Roe avenue, following the developments in the case of a dog owned by Cory Richards of Roe avenue, which died last Saturday following a suspicious illness which lasted for several days.

The dog's head was sent to Columbus late Saturday and on Sunday experts in the state laboratory notified Dr. H. L. Simpson, veterinarian, that the dog unquestionably died of rabies.

Mr. Richards' son, a lad of 10 years was bitten by the dog on Jan. 16. Soon after that time the dog began acting strangely and finally became so ill that the family became alarmed and called Dr. Simpson to diagnose the trouble. When it was definitely determined that the dog had suffered from rabies immediate arrangements were made to give the boy a course of treatment with Pasteur virus from the state laboratory. Dr. J. G. Shirer is in charge of the case.

According to information given by Dr. Simpson, the dog developed strange symptoms on the Monday following the attack on the Richards boy. Mr. Richards confined the animal and watched it closely. On Friday last, one week following the attack on the boy, Dr. Simpson, the veterinarian was called. He found that the dog's actions warranted the belief that it was suffering from rabies and ordered every precaution taken. The next day, last Saturday, the dog died. Its head was removed and sent to Columbus where bacteriological experts examined it.

The experts found that the dog's death was due to rabies. Following this report from Columbus, the Richards family was notified of the seriousness of the case and Dr. Shirer, who was attending the lad after he was bitten, immediately arranged with the Columbus laboratory for a supply of virus for the treatment of hydrophobia. This virus will arrive daily and every effort will be made to prevent the development of rabies in the boy's case.

This is the first time in the history of Licking county where the Pasteur treatment has been given without seeing the patient at the Chicago Institute. It is believed that the prompt discovery of the disease in the dog will result in the control of the case if the boy was affected.

Dr. Simpson states that the fact that the Richards dog ran at large immediately before the boy was bitten and fought with many dogs in the eastern part of the city, it is possible that an epidemic of rabies may follow. He recommends that all dogs which might have been bitten, be closely confined for observation at least until the period for the development of the disease is past. He recommends that such dogs as can not be confined, be killed at once as a safeguard to East Newark residents.

OLD FOLKS FIND NEW REMEDY RELIEVES ALL KIDNEY AND BLADDER MISERIES

Drives Rheumatic Pains Away, Relieves Backache and Bladder Disorders After A Few Doses Are Taken

Sleep disturbing bladder weaknesses, backache, rheumatism, and the many other kindred ailments which so commonly come with declining years, need no longer be a source of dread and misery to those who are past the middle age of life. The new discovery, Croxone, overcomes all such disorders because it removes the very cause of the trouble. It soaks right into the kidneys, through the walls and linings, cleans out the little filtering glands and cells, and gives the kidneys new strength to do their work properly. It neutralizes and dissolves the poisonous uric acid substances that lodge in the joints and muscles, causing rheumatism, and makes the kidneys filter and sift out all the poisonous waste matter

TEMPERATURE AT 60 MARK TODAY; SPRING ON WAY

If the groundhog should happen to crawl out, if the birds should start to form on the trees, and if some early gardener should don his straw hat and start wielding a hoe and rake, surely Newarkites oughtn't feel surprised. Tuesday's temperature was almost enough to inspire that annual ditty: "Spring Has Come."

From the cold blasts of mid-winter to the balmy zephyrs of the days of lassitude, is only a step nowadays. The temperature was recording the

from the blood and drive it out of the system.

It matters not how old you are or how long you have suffered. Croxone is so prepared that it is practically impossible to take it into the human system without results. You will find it different from all other remedies. There is nothing else on earth like it. It starts to work immediately and more than a few doses are seldom required to relieve even the most chronic, obstinate cases.

It is the most wonderful remedy ever made for restoring the lifeless organs to health and strength and ridding the system of every particle of uric acid and you can take it with the utmost confidence that nothing on earth will so quickly cure such conditions.

You can obtain an original package of Croxone at trading cost from any first-class druggist. All druggists are authorized to personally return the purchase price if Croxone should fail in a single case.

'JIMMY' DOLAN IS BACK ON A VISIT FROM PADEN CITY

Mr. James Dolan of Moult street, the well known glass blower, who at present is engaged in a plant at Padon City, West Virginia, is in the city for a few days, having come to attend the wedding of his son, John Dolan to Miss Anna Moran. He is one of a half dozen expert blowers who are located at Padon City and he states that they are all in excellent health and that the outlook for the year is one of the best ever enjoyed by the company. "People in that part of West Virginia are optimistic of the future," said Mr. Dolan, "everyone is prosperous and all look forward to a better condition of business in general. The new tariff bill has not affected the trade, in fact things have so adjusted themselves that glass workers all over the country are satisfied that there will be a resumption of plants which have been idle. The course pursued by President Wilson is commended by craftsmen generally and there will be no necessity for blowers to remain idle in the course of a few months, that at least is my opinion." Mr. Dolan will return to Padon City tomorrow night.

SUPREME COURT

Refused to Review Case Brought Under New Educational Law—Other Decisions.

(Associated Press Telegram)
Columbus, Jan. 27.—The Supreme court today refused to review a case brought under the new educational law, regulating the age of children working in industrial plants. The motion of the Collins-Taylor company of Cleveland to docket an appeal from the Circuit court decision giving a verdict of \$6000 to Steve Korens, a 14-year-old boy who was injured by a wool carding machine in the company's manufacturing plant, was overruled. The award given the boy in the lower court therefore, will stand. An appeal was sought on the ground that since the boy claimed he was older than he was, the company was not responsible for his injury.

William Grassbaugh, of Danyille, Knox county, won his fight for damages against the Ohio Electric company for having been injured by an electric car near Urbana more than five years ago. He will get \$5000, according to the verdict given him in the Licking county Common Pleas court and later in the Court of Appeals.

A new trial in the Common Pleas court of Mahoning county was ordered in a Youngstown case in which Eleanor Smith, a school girl, was killed by a street car of the Mahoning Valley railroad company. Her father, Irvin Smith, sued for \$10,000 damages for wrongful death. The Common Pleas court decided the motion was not carried and gave a judgment for the railway company.

WOULD QUASH CONSPIRACY INDICTMENT

(Associated Press Telegram)
Houghton, Mich., Jan. 27.—Arguments on a motion to quash the conspiracy indictments against Charles H. Moyer, president, and more than thirty other officials and members of the Western Federation of Miners, will be heard late today by Judge O'Brien of the Houghton county circuit court.

Should the motion be overruled, attorneys for the labor leaders expect to make application for a change of venue in all of the more important cases. The labor representatives will ask that the indictments be quashed on the ground that the special grand jury which returned them had been summoned illegally and that its sessions had not been conducted in secret.

Attorneys for the federation also expect to renew their demands for a copy of the testimony given to the grand jury. Such a demand was refused yesterday. President Moyer and Charles Tanner, auditor of the federation are expected to appear in court this week to answer the charges in the indictments.

U. S. SUPREME COURT TO HEAR ARGUMENTS ON NINE HOUR LAW

(Associated Press Telegram)
Columbus, Jan. 27.—The United States Supreme court at Washington will hear arguments tomorrow in the case to determine whether or not the Ohio statute prohibiting the employment of women for more than nine hours a day or a total of fifty-four a week is valid.

The Ohio Manufacturers' Association which is attacking the statute, carried the case to Washington from the Ohio Supreme court, which held the act constitutional.

The attack on the law was started in the Franklin county Common Pleas court.

Louis D. Brandeis, the Boston lawyer, and Clarence D. Laylin of Columbus, special counsel of the state attorney's office as representatives of the state, will defend the law before the high court.

Former Attorney General John M. Sheets, of Columbus, representing the Manufacturers' Association will argue against the constitutionality of the law. He contends that it offends against both the state and federal constitutions by laying down an arbitrary regulation for employers to follow which is alleged to be in violation of the rights of contract.

AUTOISTS HAD NARROW ESCAPE FROM COLLISION

A four passenger automobile, owner unknown, ran into a ditch at the second crossing on the Mt. Vernon road on Tuesday morning.

The machine containing four passengers, two men and two women, endeavored to beat the morning passenger train on the B. & O. railroad over the crossing. The result was that a collision was narrowly averted, the driver unnered by his miraculous escape, lost control of the machine and it plunged into the ditch. All were thrown out but escaped injury with the exception of slight bruises.

WONDERFUL COUGH REMEDY.
Dr. King's New Discovery is known everywhere as the remedy which will surely stop a cough or cold. D. P. Lawson of Eldon, Tenn., writes: "Dr. King's New Discovery is the most wonderful cough, cold and throat and lung medicine I ever sold in my store. It can't be beat. It sells without any trouble at all. It needs no guarantee." This is true, because Dr. King's New Discovery will relieve the most obstinate of coughs and colds. Lung troubles quickly helped by its use. You should keep a bottle in the house at all times for all the members of the family. 50c and \$1.00. Recommended by Frank D. Hall.

station of judicial officers; by Snyder of Hamilton, to provide for the nomination of United States senators by direct primary; by Senator Broadstone of Greene, to provide compensation for employees of the Ohio Soldiers' and Sailors' Home, at Xenia; by Haas, of Delaware, providing for election of trustees and government of universities and colleges.

Among resolutions that were laid over under the rules and which may be considered today are these: By Terrell, of Cuyahoga, to provide for the printing of the report of the Ohio mining commission; by Nye, of Lucas, requesting the governor to send a new message to the legislature.

Only one witness was examined by the Kramer committee investigating whether any members of the lower house of the legislature had drawn money illegally at the hearing of the committee this morning. This witness was Representative C. A. Orrison of Franklin county. Another witness whom the committee desired to examine could not be found and it was announced that another meeting of the committee will be held this evening, when it is planned to hear Representative Oscar Diser of Mahoning county.

Charles A. Orrison, representative from Franklin county, had to work until 10 o'clock at night and seldom took a half holiday on Saturday afternoon on his clerical job in the automobile license department. He declared today in a hearing before the legislative investigation committee which is trying to find whether any members of the legislature must forfeit their seats because they accepted two salaries from the state while serving as legislators. Orrison testified that he was serving only as a clerk, and he cited the committee to the supreme court decision which he said ruled that a clerical position is not an "office" under the section of the constitution which provides a legislator may not accept money while serving in any state "office" while acting as member of the legislature.

Representative Orrison told the committee he received \$75 a month from the automobile department before he was nominated and that when he became a member of the legislature he was employed at \$112 a month. He quit the job only during the campaign before election more than a year ago.

Representative Diser of Mahoning county could not be found at the capitol when the committee started its second session today. He offered the original resolution which started the investigation. Representative Orrison is the second of the four representatives whose records are being investigated. Representative Black of Hamilton county told the committee his side of the controversy yesterday. Representatives Hoffman of Hamilton county and Warnes of Holmes county are yet to be heard.

Legislators today declared they had discovered several legislators who worked last summer for the agricultural commission and that they will suggest they be called before the committee.

The house committee on banking by a vote of 8 to 1, today decided to report on the Guthery bill which would permit state and national banks to act as executor or trustee of estates. The provision to permit banks to act as administrator was not included. The negative vote was cast by Representative Terrell of Cuyahoga.

Those voting in favor of the amended bill were Representatives Kennedy, Holl, Clark, Brown of Ashland, Smith of Butler, Doster and Plank. Representatives Conover and Reichard, members of the committee were absent.

When the bill is presented on the floor of the house, an amendment probably will be offered by Representative Kennedy to strike out the section which provides that banks must have a certificate of permission from the state superintendent of banks before acting as executors or trustees. He offered such an amendment before the committee today but withdrew it before a vote was taken.

Representative Smith, of Butler county, an attorney, led a fight in committee to grant state and national banks the additional power of acting as administrators, but this amendment was defeated by a vote of 6 to 2. Mr. Kennedy explained that he opposed it merely because he
